Petitions Indicate Incorporation Is Popular In District

Pettitions calling upon the Nevada County Board of Supervisors to hold an incorporation election for the Truckee-Donner community are being circulated with excellent results.

Dr. Ben King, who heads the incorporation committee, said further extension of time to have the petitions filed has been granted by the board this week.

Securing signatures are Mrs. King and Mrs. Pat Tonini. Both report few turndowns, indicating that the residents of the area are not unwilling to have the matter come to a vote. It was pointed out that signatures on the petitions do not necessarily mean the signers are for or against the project.

It is believed that the necessary number of signatures, representing the required assessed land valuation will be obtained without difficulty.

Since there are many legal steps necessary before the election, it is thought the matter may not come up for a vote before next September.

A report from Administrative Consultant Robert O. Bailey indiboundaries of the Truckee Public Utility District would be benefitted both financially and from a standpoint of services through incorporation. This led the chamber of commerce to sponsor a drive to determine whether the voters of the district favor the plan.

Utility Will Supply Security Lighting

To improve the street lighting service in the community, directors of the Truckee Public Utility iDstrict at last week's meeting, voted to provide at cost additional lights in some areas of the district.

Manager Francis Longo said a 7,000-lumen security light will be installed by the district for a contracted 48-month period at $3 per month to be added to the monthly electric bill. Provision is also made to install 20,000-lumen units at $4.50 per month. Where a pole is required an additional $1 per month will be charged.

The board also agreed upon lease terms with the Sylvania Corporation for a four acre site on the Brockway cutoff where a simulated missile base will be installed for testing under snow conditions. Last year, a similar installation was located near Kingvale.

Dave Rose was installed as a new member of the board, replacing George Kaspian, who resigned. The term runs until 1967. Jack Marguette, who has been selected by the board to replace James McIver, who also resigned recently, has declined the post, leaving a vacancy which will be filled in the near future, Longo said. The latter position will expire in May next year.

MORE WATER FOR OLYMPIC HEIGHTS

Residents of Olympic Heights will be pleased at the announcement by Manager Francis Longo of the Truckee Public Utility District that the 1300 feet of eight-inch water main has been installed to supply more quantity and pressure.

The line runs from Burckhalter Street and the old Sierraville road to the cemetery where it connects with a six inch line to serve the subdivision.

Longo also announced that steel is starting to arrive to construct the new electric substation in the eastern end of Truckee. This is expected to greatly increase the service and eliminate waste of power.

ACCIDENT VICTIM IS PLAINTIFF IN SUIT

AUBURN—A $50,000 personal injury suit was filed in Auburn last week by Charles S. Thayer against Ralph Bly and four Does. Thayer accused Bly and the others of hiring his crane and using defective timber extension in the boom.

Another Stretch Of Freeway Is Opened

A new four-lane section of Intestate 80 between 0.8-mile west of Emigrant Gap and three miles west of Cisco, has been opened to traffic following completion of an $8.7 million project which required nearly four construction seasons.

The work on this contract, converting about 5½ miles of old US 40 to Interstate freeway standards, was begun in July, 1961.

Traffic has been using the new westbound lanes for about half the length of the job and with the work now completed two lanes are open in each directon.

Two other construction projects, including major work over the summit, are nearly complete.

Wolverines Lose In Games At Colfax; Live Oak Is Next

The Tahoe Truckee Wolverines dropped their second game of the current football season Saturday at Colfax when the Falcons opened the Pioneer League play with a 13 to 6 victory.

The Tahoe-Truckee touchdown came as a result of a bad pass back on a punt attempt by Colfax which soared over the punter's head and was recovered in the end zone by Steve Davis. The attempted run back failed.

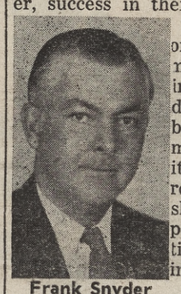

Colfax also won the jayvee preliminary by the same score, 13 to 6.

Friday, the Wolverines move to Live Oak for two night games, the JV starting at 6 p. m. and the Varsity at 8.

Scores of people Saturday attended the formal opening of the new Pondersoa Buick Garage in Gateway Park to wish the managers, Frank Snyder and Marshel Stringer, success in their venture.

Frank Snyder

The 1965 Buicks on display created nore than passing interest and the decor of the new building was admired by the visitors. The show room, offices and shop were completed just in time for the opening.

Refreshments were served the visitors between 5 and 7 p. m.

Both Snyder, who will be in charge of the sales and Stringer, the service representative, expressed their appreciation for the large turnout of guests to inspect the new building, cars and facilities..

Snyder said the agency for the Jeep has been obtained and the first shipment of these popular vehicles will be arriving within the next two weeks to take their place with the Buicks in the display rooms.

EMERALD BRIDGE IS NEEDED FOR SCHOOL

A low level, all year highway at Emerald Bay at Lake Tahoe, would make feasable a Lake Tahoe junior college campus some time in the future. South Tahoe, by means of a narrow coastline strip of land, is contiguous to the Sierra College district at the north end of the lake.

A high level highway at the lake would probably mean South Tahoe students might prefer going down highway 50 into the Sacramento area junior college in the Los Rios district. South Tahoe high school district is also adjacent to the Los Rios district.

Although the South Tahoe district has grown tremendously in the past decade, it does not appear possible for it to form its own JC district in the foreseeable future.

Thirty-eight of the 40 retail business classes topped 1963 second quarter records. Only shoe stores and candy stores failed to reach levels of a year earlier.

The California Elks Veterans committee is again looking for usable hides of deer, goats and steers, especially deer.

Hunters with hides which they wish to dispose of for a most worthy cause are asked to leave them at the office of the California Highway Patrol in Truckee for shipment to the veterans. The hides should be salted and wrapped with the hair side out and will be sent to the Auburn locker plant for distribution.

NEVADA COUNTY IS RICHER FROM FEES

SACRAMENTO — (CNS) — Nevada County has received a check for $15,516 from State Controller Alan Cranston as its share of trailer coach fees for the first six months of 1964.

The county's share was out of a total of $5,281,442 in fees which were distributed on the basis of fees collected in the counties in whcih the trailers were registered. The fees are levied in lieu of property taxes.

Second Meeting On Tahoe Plan Slated Tomorrow

AUBURN— The Placer County Planning Commission will hold its second public hearing on the Tahoe Regional Plan at 10:30 a.m. on October 9 at the Placer County court house in Auburn, C. A. Gibbs, commission chairman, announces.

Attendance at the first public hearing held at Tahoe City, Gibbs said, indicated a general lack of knowledge on the part of Placer County residents as to the proposals in the Tahoe Regional Plan. Several elements of the plan will have direct effect on property owners within the ocunty about which ers within the county about which Gibbs.

First is a proposal that the lands in the higher elevations lying approximately one mile or so from the lake should be set aside as "scenic areas," which would, in all probability, mean that future zoning of this property would all but preclude its development.

Other proposals directly affecting Placer County residents include the establishment of a commercial, hotel and motel area at

They've gone—yes Tony and Claudia St. Claire left their beautiful Donner Lake home and are on their way to a new life a long way from here but still near the water, Forth Myers, Florida. Many farewells were given them and we all wish them much happiness and they promise to come back and visit here next summer.

New owners Dr. Ben and Georgiana King will enjoy being on the lake and it's sure the kids will the way they leaped for joy and ran around excitingly wondering what to do first. They even did some fishing right off the shore. Welcome to Donner Lake folks.

Can it be more beautiful at this time of year than any other? The yellow aspen and alder are reflected in the mirror like water making a lively still life.

The fire danger is still acute and no open fires are allowed at this time. We have been fortunate that our volunteers have been able to put out small fires before they get out of hand.

Donations for the Donner Lake Fire Department are now being accepted with suggested fees as follows: undeveloped property, $5 to $10; summer homes, $10 to $15; permanent yearly residences, $20 to $25; single small businesses, $25 to $0; motels of five or more units, $0 to $40 and lodges and warehouses, $50 to $75.

The freeway is coming along and will soon be finished. Two new stretches have been opened already, near Nyak and the by-pass of Rainbow Tavern and Hampshire Rocks. It won't be long before the trip from Sacramento to Reno will be non-stop but of course we hope some of the travelers will come down to Donner Lake and enjoy its quiet surroundings too.

Donner Lake Water Ski Club champion Chuck White couldn't resist the calm water Sunday and kept up his practice in slalom and trick skiing.

New officers for the organization are: president, Kent Garrett; vice-president, Bill Storrs; secretary-treasurer, Chuck White; corresponding secretary, Lyn Giovannoni; publicity, Robin Storrs and the Donner "Splash" editor, Chuck White.

Doris Ruth Jamieson, former club treasurer and Karen Hansen, former secretary are now attending college in Hawaii and plan to enter the Hawaii Ski meet December 26 27. Water skiing right after Christmas seems funny since most of us will be snow skiing by that time.

Sam Medford is attending the University of Utah and hopes to make the ski team there.

This active group of water skiers held the largest slalom meet on the West Coast at Donner Lake in August, 150 entrants.

Fred Rechenmacher recently won two beautiful trophies when he entered one of his planes in the Reno Air Races, one for being first in his heat and one for being fifth over all. Congratulations.

Squaw Building Is Being Investigated

AUBURN — An investigation into the building activities of Alex Cushing of Squaw Valley was called for by the Placer County Board of Supervisors last week.

The probe was urged by Supervisor Robert Radovich who charged that Cushing had failed to obtain county permits for installation of septic tanks and construction of chairlift towers at the ski resort.

Most of the area is leased from the federal government by the state which in turn has subleased to Cushing.

Public Works Director John McCoun verified Radovich's charges that Cushing failed to obtain the proper permits. He said his department has been unable to find anyone who has inspected the recent work there.

County Counsel Richard V. Smith said he is awaiting an opinion from the attorney general's office on the matter.

Smith and Supervisor William S. Briner indicated Cushing's contract has no clause requiring him to check with local authorities on such matters.

Last October Lassie, his trainer-owner Budd Weatherwax and his wife, Betty; the producers, Bonita Granville Wrather and Jack Wrather, and the entire TV company, spent a couple of weeks on the North Shore filming a portion of the series.

The October 3rd issue of the Saturday Evening Post features Lassie on its cover and an interesting story, "The Saga of Lassie" by Vernon Scott tells his history.

Those who met and know the Weatherwaxes from their stay at Lake Tahoe last year, will find this an interesting and true story about Lassie, with no distortion on any of the facts.

In a fast growing area there is no place for stray dogs which cannot be picked up without an ordinance and without them requiring a license.

PROPERTY TAX HIT BY UNRUH IN TALK

SACRAMENTO—(CNS)—Assembly Speaker Jesse M. Unruh, D-Inglewood, told the state association of county assessors of California Tuesday that property tax was "that festering sore in our revenue structure" which had increased almost twice as fast as personal income.

"We must reduce this burden on our citizens," Unruh said.

Unruh also was highly critical of wasteful duplication in local government services. He said expenditures of the state's 3342 special districts had increased by more than 1127 per cent in the past 10 years.

Unruh told the assessors that the population had increased by 41 per cent during the past 10 years, while the assessed valuation of property had gone up 83.7 per cent and the personal income by 88.5 per cent. But property tax collections for the same period increased by 150 per cent.

The speaker called for state government action to assure equitable taxation and efficient, effective use of tax dollars. The property tax places a heavy burden on persons with small current cash incomes and serves as a poor index of benefits received, Unruh said.

CRYSTAL BAY WOMAN INJURED IN ACCIDENT

MEDIAN SALARIES IN CALIFORNIA IS SET AT $7204 TO TEACH

SACRAMENTO — (CNS) — The median salaries for classroom teachers in California during 1963-64 was $7204, the state department of education reported.

This included 145,592 full-time teachers but did not include persons in administration capacities.

The median salary for element ary teachers was $6781, while high school teachers had a median of $7697 and junior college teachers $7204.

Since last year ,the minimum salary for teachers was raised from $4500 to $5,000. This means not only that no teachers may be employed for less than this amount, but the increase in the lowest-level positions was expected to be reflected in increases on up the salary line.

In 1963-64, there were 173 teachers who received less than the minimum of $4500 and 1743 who were paid less than $5,000.

The department's report showed California teachers have received salary increases averaging about 4.9 per cent (for the median level) every year for the past 11 years.

In 1952-53, the medians were 3997 for elementary teachers; 4783 for high school teachers and 5463 for junior college teachers, with an overall median of $4266.

Since 1952-53, the median salary or all California teachers has gained by 68 per cent. The increase for elementary teachers was 67 per cent; for high school teachers, 1 per cent; and for junior college eachers, 69 per cent.

OBSERVERS TO VISIT PLANT IN GERMANY

AUBURN — Directors of the Placer County Water Agency authorized the inclusion of an observer-reporter on the Agency's inspection team scheduled to visit the manufacturing sites in West Germany where key project equipment is being assembled.

The authorization was made at the request of agency secretary and County Supervisor Robert Radovich of Lincoln, who told the board that he could not make the trip, but felt that the people of Placer County were entitled to an objective on-the-spot news coverage of the trip. Radovich declined to give his reasons for not being able to accompany the inspection team.

The West Germany trip was proposed recently to the water agency directors by Sanford Koretsky, consulting engineer on the county water development projects.

Agency Chairman Frank J. Paoli and an undesignated member of the board were authorized to tour the manufacturing plants in West Germany to familiarize themselves with the various processes and procedures involved in fabricating the massive machinery for use in Placer County.

According to Koretsky the directors will be faced with future policy decisions that can be resolved only by a basic knowledge of the tasks involved in this phase of development.

"After all", Radovich declared in introducing his request, "the people of Placer County and the news media in general have given tremendous popular support to this project and they should have top flight coverage all the way."

Radovich indicated no personal preference as to which newsman should go, but said that he felt the reporter needs a good working knowledge of the project and must be able to take pictures of the trip for local media use.

The supervisor indicated that local publishers, broadcasters and working newsmen should choose this representative themselves. "And,' Radovich said, "they should do this quickly as the trip is scheduled for late October".

NEWS FROM DONNER TRAIL

By Betty Kielhofer

Some of us thought it would be fun to have a real estate news article in the Sierra Sun to let the readers know who's new in the area, who's leaving, all about new business developments, etc. This has been a bustling summer of activity with many new residents settling among us and most of them say it's something they have always wanted to do—move to the mountains!

If you'll sneak out through the pines at Prosser Heights some evening, you'll probably catch Ray and Muriel Wiser working like beavers preparing their 'ranch' for a beautiful new home square in the middle of 20 acres. They wanted privacy and what better way than this?

The Nels Walbergs of Hayward are fulfilling an old dream by purchasing their lot on Highway 89 near the Fred Haswells and will build their winter ski cabin.

Andy and Maggie Creglow have joined the ranks of proud property owners and will some day have their home right on the 2nd fairway of the Ponderosa Golf Course.

Have you driven out to Olympic Heights to see all the new building going on there? The Cy Armstrongs have just completed and moved into their snappy new home which is about the prettiest color for the mountains I've seen.

And practically next door, Bob Merica is not quite finished with his latest creation.

Now I see the ground broken and frame-work going up on what looks to be a huge home which will house the Howard Hansen family, also in Olympic Heights. He's with Fibreboard, as is Hank Shwartz, who is toiling away on their lot next door to Eve in Donner Trail Estates. They are trying desperately to ready it in time to build before this season ends.

We also have a nice new industry this summer in the form of Donner Lake Lumber Company on West River Street. This makes everyone happy and we hope to see more of it.

Many new plans are on the board for more industry in and around Truckee and as they come about, we'll keep you informed. This is the only way to support more population and without a doubt, the lack of industry is the only reason we don't have thousands more living here year 'round.

One of our latest investors in the area are Michael and Jennie Rafton of Newark and Piedmont. They are most enthusiastic about the Brockway Shortcut and have great plans for their property there.

A sad good bye is being bid to Virginia and Dick Paddock this week by their legion of friends in the area. They will lease their nice new home in Donner Trail and promise to return often.

Sherman and Dorothy Bliss, who have long been investors in our mountains, had a wonderful surprise birthday party for Eve Popovich in their newly remodeled home in the Rubicon. It's huge and very cleverly arranged.

We're off, like many another, to our annual hunting trip in Wyoming this week so will have more news for you in a couple of weeks.

PROPOSITION 17 IS BLASTED BY FORD

John Anson Ford, former Democratic national committeeman from California, has assailed Proposition 17 on the November ballot as a "perfect example of the abuse of the initiative process in California and an issue which must be overwhelmingly defeated."

Proposition 17 seeks to repeal California's minimum train crew laws. The measure is officially opposed by the statewide, bi-partisan California Committee to Preserve Railroad Safety, the Democratic party in California and by many prominent Republicans. Ford is southern California co-chairman of the Railroad Safety Committee.

"The initiative process is a great democratic instrument and an important safe guard for all citizens when properly applied," Ford said. "But highly complex and technical special intrest measures should not be presented to voters. Such measures deal with subjects far beyond the average citizen's knowledge and contain highly technical and confusing language which only a skilled attorney is capable of understanding."

As evidence of the abuse, Ford pointed to the recent passage of a California Constitutional Revision Committee proposal to require every initiative measure on the ballot to carry the approval or disapproval of the state legislature. He noted such a recommendation would be designed to help reduce the abuse.

Pinpointing the abuse to Proposition 17, Ford said: "Our state legislature and state public utilities commission have a better knowledge of railroad operations and are thus better qualified to determine minimum safe manning requirements than the average voter. The public, unfortunately, lacks all the facts and the necessary time to study them."

LAKE LEVEL

TAHOE CITY—The level of Lake Tahoe at Tahoe City, reported by Daryl De Walt on Tuesday was 6225.24 feet, 175 cubic feet per second was being released from the lake.

Low temperature on September 29 was 36 degrees, followed by high for the week on October 3.

Freeway Dedication

(Continued from Page 1)

ample space for the participants.

The ceremonies at the summit will conclude at 2:30 p. m. and the official delegation will proceed to Reno where a cocktail party and dinner will be served to invited guests, with the Reno chamber as host.

At the site of the dedication program, it is planned to have on exhibit road building equipment, horseless carriages and other materials incident to the progress of highway building.

The Truckee-Donner Horsemen's Association will be invited to participate as will the Chief Truckee Chapter of Clampers and other local groups.

Instead of the usual ribbon cutting, it is planned to blast a huge boulder out of the road.

The Truckee-Donner area is taking an active part in the celebration, this being the only populous area near the scene, an area marked with the history of the pioneer highway which in 1848 defied the efforts of the ill fated Donner Party at the location where the broad, sweeping four-lane freeway now invites modern traffic the year around.

A press party, prior to the dedication, will be held in San Francisco and a huge gathering is expected for the program, weather permitting.

Rainbow Installs

(Continued from Page 1)

Susie Olano, the Christian flag bearer and Nickie Barker, Rainbow flag bearer.

Nancy Randol will be pin-on chairman with Nancy Barker, Kris Meixner, Susie Olano and Evelyn Hudspeth in charge of publicity. Entertainment is handled by Jennifer O'Bear, Susan Clackett and Bonnie Eklund. The choir is comprised of Vickie Russell, Linda Taylor, Jackie Marquette, Jayne Shontz, Rhondi Thorwaldsen, Lyn Aro, Buni Board, Dee Brown, Lolly Chapman, Lisa Davis Marcia Kopasek, Judy Layton, Marianne Moore, Carolyn McKinnon, Pat Shane and Shari Wall.

Assisting Liane Kay as installing advisor will be Vickie Rich, installing chaplain; Mrs. Nace Firpo, musician; Dianne Silverii, recorder; Kathy Barker and Sheryn Abrahamian, marshalls.

Mr. and Mrs. James McIver will be host and hostess and will extend the welcome. The Bible will be pre sented by Zachary Kay and a solo will be sung by Mrs. Robert Mason, accompanied by Mrs. Firpo.

The advisory board of the order consists of Mr. and Mrs. Armen Abrahamian, Mrs. Dorothy Corbin, Mr. and Mrs. Jerry Culbertson, Mrs. Aileen Hatfield, Mrs. Hilda Hintz, Mr. and Mrs. Charles Rich, Mrs. Lucille Sauby, Mr. and Mrs. Bob Smelts, Mrs. Phyllis Snyder, Mr. and Mrs. Chuck Walker and Mrs. Meriam Zwarg.

No Nuclear Plant For Sierra Pacific

Hopes for a Sierra Pacific Power Company nuclear power plant at Yerington faded today with an announcement that the Atomic Energy Commission has decided not to proceed with the project.

Fred L. Fletcher, Sierra Pacific president, said he was tremendously disappointed in the commission's action, explaining that as recently as June 1 the commission was encouraging Sierra Pacific with its proposal; but Fletcher quickly said the AEC turn-down would not stop the company's plan to put a major plant at the Bolster Ranch just a few miles north of Yerington.

"Sierra Pacific will proceed with an alternative plan to install either a coal-fired or gas-fired 100,000 kilowatt steam electric power plant there," Fletcher said.

He explained that planning studies on a conventional plant have been going on concurrently with the nuclear study and added that a conventional plant would go into service in either 1967 or 1968.

Because the nuclear plant that Sierra Pacific proposed to build in Nevada was a line item approved by congress and signed by the president, the AEC action was not absolutely final, but Fletcher said reversal of its decision by the AEC although possible is somewhat remote.

PAULINE SHEEHAN IS VISITOR IN DISTRICT

Mrs. Pauline Sheehan of Auburn, with her son and daughter in law, Mr. and Mrs. Dan Sheehan of southern California visited friends recently at Lake Tahoe and Truckee.

Dan has just returned after a year spent with the U. S. Marine Corps in Viet Nam and is now stationed at Torrance, California.

Proof that the world is shrinking, he talked with another service man while overseas, praising the beauty of this mountain country and learned he was conversing with George Gregory who had attended school here. His parents, Mr. and Mrs. Rufus Gregory are well known former residents of Truckee.

Browns On Trip

During the week end Mrs. Elmer Brown and son, Ron, continued to San Francisco after leaving Richard at Auburn to attend a national guard meeting.

They visited with Miss Joan Brown, a senior at San Francisco State college who is studying languages and art, planning to teach the subjects on high school or college level.

"Best shot" reported was by Chuck Boothby of Carnelian Bay, hitting a squirrel at 200 yards. "Shortest drive" was credited to Marvin Fisher of Loomis, tapping the ball off the tee, after which it rolled out two inches and back, ending resting against the tee.

Bill Bates was chairman of the arrangements committee for the sponsoring Rotary Club of North Lake Tahoe.

RELATIVE HERE TO SETTLE LEWIS CASE

Mr. and Mrs. Joe Tofenelli of Oakland were here this week settling the affairs of her late sister, Mrs. Hazel Lewis, who died the latter part of September. The visitors arrived home from Washington, D. C., to learn of the death.

Mrs. Frank Quilici also said another sister, Mrs. Geneva Barnett, also of Oakland, was unable to attend the services due to ill health.

Mr. and Mrs. Ange Besio attended the football game last week end at the University of California on family day and visited with son, Steve, a student there.

Mr. and Mrs. Henry Williams of Sacramento sent greetings to their local friends, keeping in touch via Sierra Sun.

Second Meeting

(Continued from Page 1)

Tahoma, large park and recreation facilities at Agate Bay, Sunnyside, Idlewilde and Tahoe Pines, and the establishment of commercial facilities limited to the following four: Tahoma, Tahoe City, Dollar Hill and Kings Beach. Apartments and other commercial expansion are planned for large sections of the Lake Vista subdivision, said Gibbs.

All of the foregoing matters, he said, could affect residents in these areas and it is hoped that interested persons will communicate with the planning commission, in writing, concerning their thoughts. He further stated that he doubted very much that the hearing on October 9 in Auburn will be the last hearing on this matter, inasmuch as additional hearings at the lake will probably be advisable.
